“

The Hotline is a symbol of hope. I wrote the number up and pasted it on the wall because I’m like, ‘This is a lifeline, this is where I’m going to turn my life around. I’m going to get safe and I’m going to stay safe.

—Anonymous Caller 2019

“

The Hotline was the first to believe in me and my story. They were the first to give me the platform to speak out, and opened the door for many other opportunities that have come my way into becoming a successful DV advocate, and survivor! Thank you!

”

“

You helped me, and I want to help others in return. The woman who took my call told me that what I was experiencing was emotional abuse, that I wasn’t crazy, and that I deserved better. She connected me to local resources that helped me change my life.

WHO WE ARE

First established in 1996 by the Violence Against Women Act, the National Domestic Violence Hotline is the only 24/7/365 national organization that directly serves victims of domestic violence, their friends and family via phone, chat and text. Our work rests on three pillars – crisis intervention, prevention, and systems change.

The heart of The Hotline is our highly-trained advocate staff, who provide high-quality, trauma-informed education, validation, and connection to services that empower victims and survivors to make life-changing decisions with dignity and respect. We recognize that victims and survivors need a wide range of assistance; therefore, we maintain a robust database of approximately 5,000 carefully vetted providers and resources, including shelter and transitional housing, counseling, culturally and linguistically specific programs, and legal services. The Hotline is a frontline resource for survivors, often the first source of validation of abuse experienced, and a trusted provider of resources, referrals and safety planning tailored to each callers' needs.

To respond to the unique needs of teens and young adults, *loveisrespect* was launched in 2007. Many teens rely

on *loveisrespect* to understand exactly what a healthy relationship is and how they can protect themselves against dating violence. *loveisrespect* strives to be a safe, inclusive space for young people to access information and get help in an environment that is designed specifically for them. *loveisrespect* also mobilizes parents, educators, peers, and survivors to proactively raise awareness on healthy dating behaviors and how to identify unhealthy and abusive patterns.

We advocate for survivor-centered policies and legislation using knowledge and data informed by speaking with hundreds of thousands of survivors each year. In coalition with other leaders in the field, we ensure that survivors are represented when policymakers discuss matters that effect their safety and support.

The Hotline and *loveisrespect* provide the following services, via phone, online chat, or text, with access to 200+ languages:

- Trauma-informed crisis intervention
- Personalized safety planning
- Domestic violence education
- Healthy relationship information
- Referrals to local/state resources

Our services are free and confidential.

OUR VISION

We envision a world where all relationships are positive, healthy and free from violence.

OUR MISSION

Our mission is to answer the call to support and shift power back to those affected by relationship abuse — 24 hours a day, seven days a week, 365 days a year.
